

# Youth **Work Experience Partnership Program**

## **Connect and Make a Difference**

We believe in the power of connection. By providing the right resources and opportunities, the Work Experience program can help young workers forge a path to success.

The Nebraska Department of Labor is giving you the opportunity to be a connection that makes a difference. Research shows work experience is correlated with higher high school graduation rates and success in the labor market. By participating in the Work Experience Partnership Program, you gain a short-term employee while investing in youth from your community.

### **Here are a few of the benefits of being a Work Experience partner:**

- Skip new hire paperwork.
- Receive an employee for 500 hours with no commitment to hire.  
(No more than 40 hours per week)
- Wages and workers' compensation are covered by the State of Nebraska.
- Minimal training costs to your business.
- Option to hire worker on a permanent basis once the 500 hours are completed.

# Get Connected

Contact the nearest office to see how your organization can benefit from being a Work Experience partner.
