

SECTION 3 Enrollment

Outreach

Recruitment is a collaborative effort between the career planner, regional managers, one-stop operator, and other local area staff. Recruitment methods include but are not limited to: presentations at interagency and community group meetings, partner referrals, local chambers and economic development agencies, presentations to high school and college classes, group orientations, and referrals from walk-in traffic at the job centers.

Educational materials are available to assist in recruitment efforts. All materials are posted below this section.

Referrals

Referrals may be received from a variety of different programs including, career center staff, partner agencies, interagency and community groups, etc. All referrals must be contacted within five business days. Initial contact with the client must be made by phone. Email is to be utilized as a secondary form of contact unless the individual requests otherwise.

If the individual is registered on NEworks, career planners must case note any contact with the individual and any attempts to contact. Once the individual is contacted and the referral is addressed, the referral must be resulted as successful in NEworks. If after three contact attempts the individual cannot be reached, the referral must be resulted as unsuccessful in NEworks.

Step by step instructions on creating and resulting referrals are posted below under the Enrollment Forms tab.

Client Registration

NEworks is the labor exchange system operated by Nebraska Department of Labor (NDOL). The Greater Nebraska Workforce Development Area (GNWDA) utilizes NEworks to enroll clients into the WIOA program and provide active case management. All clients are required to register on NEworks prior to enrollment. Wagner-Peyser participation is encouraged to show co-enrollment in both programs, but not required.

Initial Assessment/ Eligibility Determination

The career planner conducts an initial assessment/interview with the client to determine eligibility and suitability. The initial assessment provides preliminary information about the individual's skill levels, aptitudes, interests, and supportive service needs. During this assessment, the career planner should explain to the participant the documentation they will need to provide, give an overview of the program including required program components, expectations of the program, etc.

The initial assessment must be case noted. Reference Section 4 Documentation for an example.

Example Case note:

Completed an initial assessment with Lynda and determined the WIOA program could be beneficial. Lynda is currently unemployed due to being let go from Ace Hardware. Lynda lives by herself, making her a household of one, and is looking to upgrade her skills. During the appointment we discussed the WIOA application, required verification documents, and I provided an overview of the program and services available to her.

WIOA NEworks Application

To create the WIOA application, expand Staff Profiles > expand Case Management Profile > select Programs > Create Title 1- Workforce Development (WIOA) Application > navigate through the application utilizing the enrollment checklist to complete the application.

The NEworks WIOA application date is the date when the WIOA application is created. The WIOA participation date is the date following a determination of eligibility to participate in the program and the date when the individual begins receiving a service from the program. Participation date is the official date the participant begins counting towards performance.

There is a 90 day window the WIOA application can be created prior to participation being given. If participation is not given within the 90 days following the creation of the application, the application will automatically close.

If within the 90 days following the application creation, the participant is deemed ineligible, or no longer is interested in the program, ensure you mark the “Closed, Never Enrolled” box on the first page of the application to manually close the application.

Any participant deemed ineligible should be referred to other partner programs that may be able to assist them. Case notes should be completed explaining the reason the person is ineligible.

Eligibility Determination/ Enrollment

The enrollment checklists must be utilized as a guide for the eligibility determination/ enrollment to ensure proper documentation is gathered and uploaded in the participant’s ECM/NEworks file. Checklists assist career planners in following all required processes. The enrollment checklists are available at dol.nebraska.gov > Workforce Innovation Opportunity Act > Local Workforce Development Areas > Greater Nebraska > Local and Regional Plan Documents > Operations Manual & Forms

*If an applicant is unable to provide the necessary documents to prove eligibility, a self-attestation statement may be in used in limited situations.

**Paystubs are not required for dislocated worker (DLW) eligibility. However, NEworks still requires you to enter the annualized family income. You can do this by having the participant self-attest their annual family income, provide a W2, or provide a single paystub for each household member that is currently working. Information regarding calculating income is under Income Guidelines later in this section.

NEworks Dislocated Worker Categories & Acceptable Documents		
NEworks DLW Category	Acceptable Documents	ECM Index
Category 1- Ordinary Layoff- UI Eligible	✓ Employer statement; and ✓ UI eligibility approval; and ✓ Unlikely to return	✓ Employment Records ✓ UI Documents ✓ Employment Records

Category 8- Recently Separated Member of the Armed Forces	<ul style="list-style-type: none"> ✓ DD214 (service members automatically qualify as unlikely to return); and ✓ UI eligibility approval 	<ul style="list-style-type: none"> ✓ DD-214 ✓ UI Documents

Verification Definitions/ Acceptable Documents

**Employer statement/ separation notice can be a written letter on letterhead, an email from the company email address, or a collection of documentation including UI verification (showing date of layoff, 'lack of work' reason), and if possible, newspaper article.

Unemployed as a result of a natural disaster

- The phrase *unemployed as a result of a natural disaster* means unemployment caused by a major adverse event(s) resulting from natural processes of the Earth or forces other than the acts of human beings, including environmental conditions, such as:
 - floods;
 - tornadoes;

- earthquakes; and
- other natural events beyond an individual's control.

The list provided above is not all inclusive of major adverse events that may be considered natural disasters.

- **Verification:** Newspaper article

Unlikely to return to a previous occupation or industry

For determining eligibility as a dislocated worker, an individual is *unlikely to return to a previous occupation or industry* if job opportunities in the occupation or industry are significantly diminished for an individual based on one (1) or more of the following criteria:

- official assessments of market demand for products or services in the occupation or industry;
 - **Verification:** Onet Online- Wage & Employment Trends section. If declining, print the results, write unlikely to return and index in ECM under Employment Records.
- local labor market conditions for the industry or occupation;
 - **Verification:** NEworks job search for the individual's job title in their local area, if two or fewer results come back, print the results, write unlikely to return and index in ECM under Employment Records
- evolution of skill requirements in the occupation or industry and whether an individual's skills have kept pace over time based on a current skills assessment;
 - **Verification:** Onet Online- Education section and self-attest of current education/skill level
- impact of technology or trade on the industry or occupation.
 - **Verification:** Self-Attestation Statement

A separating service member meets the standard of *unlikely to return to a previous industry or occupation*.

- **Verification:** DD214

Underemployed

The term underemployed is defined as one or more of the following:

- Individuals who are employed in a position that is inadequate with respect to their skills and training;

- **Verification:** Self-Attestation statement of skills and training and current position
- Individuals employed less than full-time who are seeking full-time employment;
 - **Verification:** Paystubs, timecard
- Individuals who are employed who meet the definition of a low income individual;
 - **Verification:** SNAP letter, low income guidelines
- Individuals who are employed, but whose current job's earnings are not sufficient compared to their previous job's earnings from their previous employment.
 - **Verification:** Paystubs

NEworks Overall Budget

Greater Nebraska requires the NEworks overall budget be completed for every participant. The overall budget is located in NEworks under My Individual Plans > Financial Plan Profile > Overall Budget.

The budget is an excellent tool to provide the participant an overall view of what their current household income and expense are. It also provides an overview of the wage the participant needs to earn to meet their monthly expenses.

The budget is used to complete the Cost of Attendance (COA) form for participants attending an Occupational Skills Training (OST) program and must be updated each semester for these participants. It can also be a helpful tool to gauge if the participant may benefit from financial literacy services.

Any public assistance income entered in the income column needs to be shown as an expense in the expense column.

Example

If the participant receives \$400 a month in SNAP benefits, ensure what is shown as income is also shown as an expense. If the participant receive \$400 a month in SNAP benefits, but only spend \$300 a month, you would only list \$300 in the income section as they aren't able to pocket that extra \$100 to use toward other expenses.

Exceptions

- Reverse referral OJT participants do not require the overall budget be completed.
- Participants co-enrolled with Trade for wage subsidy or Trade relocation assistance do not require the overall budget be completed.

Required Enrollment Forms

Below is the list of required forms that must be signed and included in the participant's file prior to participation. On Base E-forms should be the default. However, paper forms can be utilized if E-forms are not available or operating correctly. An NEworks case note must be included justifying why paper forms were used in place of E-forms. The forms can be found at dol.nebraska.gov > Workforce Innovation Opportunity Act > Local Workforce Development Areas > Greater Nebraska > Local and Regional Plan Documents > Operations Manual & Forms and include:

[Applicant Self Attestation Form](#)

[Disability Self-disclosure Statement & Reasonable Accommodation Request](#)

[Equal Opportunity is Law](#)

[Release of Confidential Information](#)

[Release of UI Information](#)

[US Citizenship Attestation](#)

Applicant Self Attestation Form

Greater Nebraska requires the self-attestation form be completed if needing proof without documentation.

For example, if an individual has graduated high school, but doesn't have their high school diploma or transcripts, they can self-attest that they graduated from high school.

Best Practices

Any information being verified by self-attest should be as specific as possible.

Examples

Joe graduated with his high school diploma from Grand Island Public Schools in 2006.

Mary is currently unemployed. She lost her last job due to the business closing. She was last employed at Cabela's from June 2000 to January 21, 2019 when she was laid off.

Disability Self-disclosure Statement & Reasonable Accommodation Request

Greater Nebraska requires every participant complete the Disability Self-disclosure Statement and Reasonable Accommodation Request form. The form is not available as an E-form, paper is the default.

The participant can choose not to respond, choose not disabled, or choose disabled. If the individual chooses disabled, they will complete the rest of the form identifying their impairment(s) and any barriers the impairment(s) may create.

Equal Opportunity is Law

Career planners must provide initial and continuing notice that WIOA does not discriminate on any prohibited grounds. The notice must be provided to all registrants, applicants, employers, etc. The local career centers must take appropriate steps to ensure that communications with individuals with disabilities are as effective as communications with others.

At a minimum, the notice must be:

- Posted prominently, in reasonable numbers and places;
- Disseminated in internal memoranda and other written or electronic communications;
- Included in handbooks or manuals; and
- Made available to each participant, and made part of each participant's file.

The notice must be provided in appropriate formats to individuals with visual impairments. Where notice has been given in an alternate format, a record that such notice has been given must be made a part of the participant's file.

Greater Nebraska meets these requirements as each local office has Equal Opportunity is the Law posters posted in the offices and each participant is provided the Equal Opportunity is the Law form to review and sign.

It is against the law for any recipient of Federal financial assistance to discriminate on the following bases:

against any individual in the United States, on the basis of race, color, religion, sex (including pregnancy, childbirth, and related medical conditions), national origin (including limited English proficiency), age, disability, political affiliation or belief, or, against any beneficiary of, applicant to, or participant in programs financially assisted under Title I of the Workforce Innovation and Opportunity Act, on the basis of the individual's citizenship status or participation in any WIOA Title I-financially assisted program or activity.

The recipient must not discriminate in any of the following areas:

- deciding who will be admitted, or have access, to any WIOA Title I-financially assisted program or activity;
- providing opportunities in, or treating any person with regard to, such a program or activity; or
- making employment decisions in the administration of, or in connection with, such a program or activity.

Equal Opportunity Officer

The Nebraska Department of Labor is the WIOA Title I Grant Recipient and Angela Hansen-Kruse is the EO Officer for State issues related to the grant. She also serves as EO Officer for the Nebraska Department of Labor. She may be contacted at:

Angela Hansen-Kruse
State-Level Equal Opportunity Officer
Nebraska Department of Labor
550 South 16th Street
Lincoln, Nebraska 68508
Telephone: 402.471.8358
TDD/TTY: 800.833.7352
Email: ndol.eocomplaints@nebraska.gov

Complaints

Any person who believes that either he or she, or any specific class of individuals, has been or is being subjected to discrimination prohibited by WIOA or the regulations implementing the nondiscrimination provisions may file a written complaint.

Reference Greater Nebraska's [Equal Opportunity and Nondiscrimination Policy](#) for step by step procedures.

Release of Confidential Information

Greater Nebraska does not require the release of confidential information in every participant file, but strongly encourage it. This form is not available as an E-form, paper is the default.

The form is used if the career planner needs to obtain any documentation on behalf of the participant.

Example

If the individual does not have a layoff letter, the career planner can provide this release to show they are authorized to contact the employer on behalf of the individual to obtain the layoff verification.

If the individual is receiving SNAP, but does not have their letter. The career planner can provide this letter to show they are authorized to contact the case manager on the individual's behalf to obtain SNAP verification.

Release of UI Information

Greater Nebraska requires every participant sign the Release of UI Information. The form is used if staff need to communicate with or gather documentation from unemployment staff.

Steps to Obtain UI Information in NEworks

Career planners and managers have access to obtain UI verification without a request to UI. There are two snips required to obtain the proper UI verification from NEworks. Save both snips

in a single Word document and upload to ECM indexed under *UI Records*. The file path and example snips are below.

Claim Summary: Assist an Individual >> Staff Profile>> Claims Profile>> Claim Summary>> expand the section “Show Claims Summary Table>> Snip (ensure you include the participant name in the snip)

This report shows us if the participant is an active claimant. You can see when they opened their claim, their most recent file date, and their claim status.

Note: The claim will show as regular active even if they have stopped claiming for a few weeks if they still have benefits available to draw from. If they have exhausted benefits the claim status will show as benefits exhausted. When you are verifying if the participant is actively claiming you will need to look at the most recent file date.

US Citizenship Attestation: Verification of Lawful Presence

Legislative Bill 403 (LB 403) requires that “every agency or political subdivision of the State of Nebraska shall verify the lawful presence in the United States of any person who has applied for public benefits administered by an agency or political subdivision of the State of Nebraska”.

Participation in WIOA shall be available to citizens and nationals of the United States, lawfully admitted permanent resident aliens, refugees, asylees, and parolees, and other immigrants authorized by the Attorney General to work in the United States.

Greater Nebraska requires every participant attest that he or she is a U.S. citizen or a qualified alien, utilizing the U.S. Citizen Attestation Form.

If the applicant indicates he or she is an alien, career planners must verify their lawful presence in the United States using the SAVE (Systematic Alien Verification for Entitlements) program.

SAVE Request

The SAVE request must be sent to ndol.greaternebraska@nebraska.gov. Administrative staff will run the applicant through SAVE to determine if the individual is a qualified alien. Career planners will receive the determination to include in the individual’s file prior to participation.

In the email request, include:

1. Applicant's first and last name
2. USCIS number
 - a. 9 digit number found of the front of the card
3. Expiration date of the card
4. Applicant's date of birth
5. Card number
 - a. This is typically found of the back of the card, under the first top half where numbers, letters and other symbols are found. It will be on the first line and include 3 letters + 10 numbers
6. Attach front and back copies of the individual's card and driver's license

Acceptable SAVE documents include, I-551 Permanent Resident Card, I-766 Employment Authorization Card, Certificate of Citizenship, Naturalization Certificate, I-94, or I-327.

Military Selective Service Registration

The Military Selective Service Act requires that every male citizen and every other male residing in the United States register with the Selective Service System between their 18th and 26th birthdays before they can receive services from federally funded programs. No person may register for the military draft after his 26th birthday.

Individuals, who are required to register, under 26, but have not registered must be referred to the Selective Service System for registration. Once registration is completed and verified, WIOA can serve these males.

Who Must Register?

- Male US citizens (regardless of where they live) and male permanent resident aliens living in the US who were born after December 31, 1959 are required to register with Selective Service within 30 days of their 18th birthday (30 days before and after). If you fail to register during this time period, you may submit a late registration up until your 26th birthday.
- Male non-citizens (including illegal aliens, legal permanent residents, seasonal agricultural workers, and refugees) who take up residency in the US before their 26th birthday are required to register. All relevant INS forms (e.g., the application for Resident Alien status, I-485, and so on) include a clear statement regarding the requirement to register.
- Dual nationals of the US and another country are required to register regardless of where they live.
- Conscientious objectors are required to register. If a draft is instituted, they will have an opportunity to file a claim for exemption based on their religious or moral objections. But they must nevertheless register with Selective Service.

- Disabled men who can move about independently in public with or without assistance must register with Selective Service, even if their disability would disqualify them from military service.
- Members of the Reserve and National Guard who are not on full-time active duty must register. Men attending the Merchant Marine Academy must register. Men who attempt to enlist and are rejected before reaching age 26 must register.

Who Is Not Required to Register?

Men born from March 29, 1957 to December 31, 1959 were never required to register because the Selective Service program was not in operation at the time they turned 18. The requirement to register was reinstated in 1980 and applies to all men born on or after January 1, 1960 (50 USC 453). Although men born before March 29, 1957 were required to register, failure to register makes one ineligible for student aid only if one was born on or after January 1, 1960.

Other reasons why a student might not have been required to register include:

- Men who are hospitalized, institutionalized, or incarcerated are not required to register during their confinement.
- Men who are serving in the military on full-time active duty are not required to register. Men attending the service academies are also not required to register.
- Disabled men who were continually confined to a residence, hospital or institution are not required to register.

However, if they are released before their 26th birthday they must register within 30 days of their release.

Other exceptions include:

- Non-immigrants visiting the US on student or visitor visas and men who are part of a diplomatic or trade mission and their families.
- Citizens of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau.
- Noncitizens who first entered the US after turning age 26.
- Noncitizens who entered the US as lawful non-immigrants on a valid visa and remained in the US on the terms of that visa until after they turned 26. (The date of entry on Form I-94 will be relevant.)
- Student is not yet 18.

Transgender Students

Individuals who are born female and have a gender change are not required to register. U.S. citizens or immigrants who are born male and have a gender change are still required to register.

What If You Didn't Register and It's Now Too Late?

If a male is not registered with the Selective Service he is ineligible for WIOA services. There are only a few options for regaining eligibility, and they depend on showing that either the student was *not required to register*, or that the failure to register was not *knowing and willful*.

If the student was not required to register, he will need to obtain a [status information letter](#) from Selective Service. This letter will indicate whether the student was or was not required to register. To obtain such a letter, call 1-847-688-6888 or 1-888-655-1825 (stay on the line until the operator answers) or write to Selective Service System, PO Box 94638, Palatine, IL 60094-4638 and ask for a status information letter.

The student will need to describe, in detail, the circumstances that prevented him from registering (e.g., hospitalization, institutionalization, incarceration, military service) and provide documentation of those circumstances. The documentation should be specific as to the dates of the circumstances. (For example, if the student served in the military and was released before age 26, he would still have been required to register within 30 days of his release.) If the student was not a US citizen, he will need to provide documentation of when he entered the United States. The student should also provide his name, Social Security Number, date of birth, and mailing address.

A status information letter is not required if the student can document his status as a veteran (copy of DD-214, active duty orders, military ID card) or that he was born before 1960. Also, non-US men under certain circumstances will not be required to obtain a status information letter.

A [Request for Status Information Letter](#) form and [instructions](#) can be found on the [Selective Service web site](#).

If the student did not satisfy any of the criteria for a waiver of the registration requirement, the student will need to *show by a preponderance of evidence that his failure to register was not knowing and willful*. The term "preponderance of evidence" refers to the standard of proof used in civil litigation, where the evidence for a fact is of greater weight or more convincing than conflicting evidence. In other words, the probability that the assertion is true must be greater than 50%.

The best evidence is original documentation, especially when it is first hand documentation produced at the time of the event. In other words, direct evidence is better than indirect or circumstantial evidence. Examples of direct evidence include a birth certificate, a date of entry stamp in a passport, and a certificate of mailing. It is best if the source of the evidence is an independent disinterested third-party. For example, a signed statement by the student is a fairly weak form of evidence, although it can shed light on the student's situation and his sincerity. Positive evidence is better than negative evidence, since it is very hard to prove a negative. Original documentation is better than a copy.

Accordingly, it is in the student's best interest to provide as much evidence as possible and in as much detail as possible.

The final decision regarding eligibility is made by the Administrative Entity, not the Selective Service. The Selective Service only makes a determination as to whether the student was required to register, not whether the failure to register was knowing and willful.

For students who were required to register, the Administrative Entity will base their decision on whether the failure to register was:

1. **Knowing.** Was the student aware of the requirement to register or not? If the student knew about the requirement to register, was he misinformed about the applicability of the requirement to him (e.g., veterans who were discharged before their 26th birthday were occasionally told that they did not need to register)? On which date did the student first learn that he was required to register? Where did the student live when he was between the ages of 18 and 26? Does the status information letter indicate that Selective Service sent letters to the student and did not receive a response?
2. **Willful.** Was the failure to register done deliberately and intentionally? In other words, did the student have the mental capacity to choose whether or not to register and decided not to register?

In addition to the status information letter, the Administrative Entity requires a signed statement from the student explaining why he did not register and independent third party documentation of any unusual circumstances or facts pertaining to the student's failure to register. It is very important to provide sufficient documentation, since the request will be denied without documentation.

Common examples where an override has been granted include the following.

- Student served in the Armed Forces on full-time active duty, was released under a condition other than dishonorable before his 26th birthday, and either assumed or was misinformed about not being required to register.
- Student tried to enlist in the military, but was turned down, and didn't realize that enlisting and registering for Selective Service are different requirements.
- Student was kidnapped by a parent in a custody battle, and that parent prevented the student from registering.
- Parents were illegal aliens and kept the student unaware of the requirement to register.
- Student claims he was not aware of the requirement and lived abroad for the entire period from age 18 through age 26.
- Student was aware of the requirement, but incorrectly believed that the requirement did not apply to him because he is his parent's only child or because all of his parent's other children are already serving in the armed forces.
- Student documents that he did submit a registration. (During the mid to late 1990s, data for some students who tried to register for Selective Service using the FAFSA form was never transmitted to Selective Service. In particular, data for students who had not yet reached their 18th birthday was never transmitted to Selective Service. A documented attempt to register demonstrates that the failure to register was not willful.)

If the student insists that he registered but the Selective Service web site disagrees, the student will need to provide documentation of the attempt to register, such as a photocopy of the

registration form. Occasionally the Selective Service database will have the student's information recorded under a different date of birth or social security number. This can happen when there are digit transpositions in the social security number or the month and day are swapped. The Administrative Entity will request a copy of the individual's social security card and birth certificate, and then call Selective Service to ask for a name search.

18th Birthday

If a male is under the age of 18 and becomes a participant, he needs to register with the Selective Service within 30 days of his 18th birthday. If the applicant is a male who is at least 17 years and 3 months old, he may complete the Selective Service System Online Registration Form to submit his registration information early. The information will be held on file and processed automatically when the youth is within 30 days of his 18th birthday, at which time he will be mailed a confirmation.

Documentation

For non-registered males seeking an override, Career Planner's must gather the following:

- Request for Status Information Letter;
- Individual's signed statement (Ensure statement is as detailed as possible); and
- Any supporting documentation/proof.

Submit the request to the Administrative Entity, ndol.greaternebraska@nebraska.gov. A response will be provided within seven business days. If the request is approved all documentation and the approval must be scanned into ECM indexed under *Selective Service Records*.

Selective Service verification must be included in the participant's file, if applicable, indexed under *Selective Service Records*. Online verification can be searched and printed at www.sss.gov > Verify or Update Registration > Verify Now.

Income Guidelines

The income guidelines are issued yearly and utilized to determine whether youth and adults are low-income individuals as defined by WIOA for purposes of program eligibility. The administrative entity will provide the updated guidelines each year. The income guidelines are posted under this section.

The income guidelines are established by the U.S. Department of Labor and the State has the option of using the higher of the Lower Living Standard Income Level or the Poverty Level Guidelines.

To calculate the annual family income for an Adult or Youth: Add the total of gross wages of all paystubs for the previous 6 month period prior to application date. Example: Application date is 6/21/2019, the six month period would be 12/21/2018-6/21/2019. Multiply the six month total X 2 for the annual total. If they did not work in the previous six months, the income will be

\$0. If there are multiple family members working in the household, do this for each member and combine the total.

A client's income must be documented in NEworks and supporting documentation scanned into ECM, if enrolling an individual in the youth or adult program as a low-income individual.

To calculate the annual family income from a single paystub for a DLW: Multiple the gross wage X 2 = One Month Income. Then multiply the one month income X 12 for the annual total. If they did not work in the previous six months, the income will be \$0. If there are multiple family members working in the household, do this for each member and combine the total.

Exclude from Income:

- Veteran's benefits including:
 - any amounts received as military pay or allowances by any person who served on active duty;
 - any amounts received by a Veteran or eligible spouses of Veterans, under 38 USC:
 - Chapter 30 for wartime disability or death compensation;
 - Chapter 30 for peacetime disability or death compensation;
 - Chapter 13 for service-connected deaths;
 - Chapter 30 for educational assistance;
 - Chapter 31 for training and rehabilitation for Veterans with service-connected disabilities;
 - Chapter 32 for Post-Vietnam Era Veterans' education assistance; and
 - Chapter 35 for survivors' and dependents' educational assistance;
 - any amounts received by a Veteran or eligible spouse of a Veteran under 10 USC Chapter 106 for educational assistance for members of the selected reserve; and
 - any amounts received by transitioning service members;
- TANF;
- Reduced price lunches under the Richard B. Russel National School Lunch Act;
- Foster child payments; and
- Payments made to individuals participating in programs authorized under WIOA Title I.

There are no other income exclusions. For the avoidance of doubt, all other types of payments made to individuals are considered income when determining low-income eligibility, including:

- Unemployment insurance benefits;
- Disability payments;
- Child support payments; and
- Payments made by the Nebraska Department of Health and Human Services for Assistance to the Aged, Blind or Disabled (AABD).

Co-enrollment

Co-enrollments with partner programs are highly encourage when participants qualify for multiple programs as they provide participants access to a wider array of available resources and support a customer-centered design that allows programs to leverage resources for participants who are eligible for, and need, multiple services that cross program lines.

Career planners must identify and track the funding streams covering specific services when a participant is enrolled in multiple programs concurrently and ensure that services are not duplicated.

A strategy must be developed in coordination with the partner program including:

1. Referrals to Provider

- Utilize the Referral to Service Provider in NEworks
- Document other referral methods to workforce partners in case notes

2. Primary and secondary participant case managers.

- The primary case manager will take the lead with the participant. They will make contact and maintain communication with the participant.
- The secondary case manager will support the participant's program participation by providing services, but they most likely will not maintain constant contact with the participant.

3. Responsibilities of the primary and secondary case managers.

- Both programs must provide services to the participant for co-enrollment to occur. These services must be coordinated by the program staff and must be recorded in NEworks case notes.
- At a minimum, the primary case manager will maintain contact with the participant, as well as record and document information related to their work with the participant.
- The secondary case manager will also provide program services to the participant. The program services can be provided indirectly and should be coordinated with the primary case manager.

4. Leverage resources to ensure no duplication of services.

- Determine specific services each program will fund/provide.

5. Determining a participant's completion for each program.

- When the participant is no longer in need of services with either the workforce partner or with WIOA.
- Communication and appropriate documentation including case notes and IEP closure needs to occur for both programs to agree on completion.
- The primary case manager creates the case closure.

Example Co-enrollments

Eligible individuals who are 18 through 21 years old may participate in adult and in-school youth programs concurrently. Such individuals must be eligible under both programs. The benefit to

the participant would be the in-school youth program could assist them with a work experience and the adult program could assist them in attending school.

When a participant is Trade eligible, the Trade program “trumps” all other programs. However, the Trade program cannot pay for supportive services that aren’t a part of the training program the participant is attending. Trade can pay for the training and WIOA could cover any necessary supportive services.

Required Action

Career planners must document the co-enrollment in the participant’s file.

Complete the Partner Program tab of the WIOA application: Expand the WIOA application > Expand the Partner Programs tab > Select Add/Edit Partner Programs > Complete the tab and save. Include any programs the participant is co-enrolled in. Case note the co-enrollment and what program plan to cover what costs.

When the participant is receiving services paid for by another program, career planners must still open the activity as normal. When selecting the provider, the career planner will select the program providing the service and case note if another program is paying for that service.

Example: Joe is co-enrolled with Health and Human Services (HHS). HHS is paying for Joe’s OST. WIOA is paying for his mileage reimbursement while attending school. Joe will have both a 312 and 181 activity open. HHS will be listed as the service provider for the training, DOL will be listed as the provider for the transportation assistance. Open an IEP objective to align with each activity. Case note the co-enrollment and the assistance each program is providing.

Example: Sam is co-enrolled with Proteus. WIOA is assisting Sam with an OJT and Proteus is covering the cost of his required boots and uniform. The career planner will open the 301 and select the employer as the service provider. The career planner will also open the 185 and select Proteus as the provider. Open an IEP objective to align with both activities. Case note the co-enrollment and the assistance each program is providing.

If the participant is receiving services paid for by another program utilizing the WIOA application (Example: TET), career planners must open the 300 activity under the TET program and open a 312 activity under the WIOA program on the day the OST begins for the duration of the training.

Whichever program has the fundable training activity open (OJT or OST), that career planner is responsible for the following:

- Cost of Attendance
- Vouchers

- Service Authorization
- Budget (semester basis)
- Measurable skill gains (semester basis)
- Credentials (if received during this time frame)

It's important to keep co-enrollments as simple as possible on the participant. They don't care that their tuition is being paid by one grant vs. another grant nor do they want to have to communicate with additional career planners. PLEASE make sure staff are communicating with each other to collect documentation, gather information, etc. from the participant.

Example Case Note

Partner Program (case note title): Sam is co-enrolled with Proteus. WIOA will be paying for Sam's OJT at John Deere. Proteus is assisting Sam with his required uniform and boots.
